**PROGRESS REPORT ON THE LEAST DEVELOPED COUNTRIES FUND
AND THE SPECIAL CLIMATE CHANGE FUND**

Recommended Council Decision

The LDCF/SCCF Council, having reviewed document GEF/LDCF.SCCF.24/04 *Progress Report on the Least Developed Countries Fund and the Special Climate Change Fund*, welcomed the report and took note with appreciation of the progress made under the LDCF and the SCCF.

EXECUTIVE SUMMARY

1. This report describes the progress made in the operations of the Least Developed Countries Fund (LDCF) and the Special Climate Change Fund (SCCF) during the reporting period from October 2017 to April 2018.
2. As of April 30, 2018, total cumulative pledges to the LDCF amounted to approximately \$1.33 billion. Of this amount, \$1.27 billion or roughly 95 percent had been paid, whereas \$57 million of pledges to the LDCF remained outstanding or unpaid as of the same date. During the reporting period, new pledges were confirmed by Belgium, Germany, Sweden, Switzerland, and the Walloon Region of Belgium, amounting to approximately \$95 million.¹
3. The demand for LDCF resources continues to exceed the funds available for new approvals. As at April 30, 2018, the funds available for new funding decisions amounted to \$90 million², whereas as of April 30, 2018, resources amounting to \$157 million were sought for 21 full-sized projects in the pipeline that had been technically cleared by the GEF Secretariat.³ An additional \$92 million was sought towards 11 project proposals that had been endorsed by countries' operational focal points and formally submitted for technical review.
4. As at April 30, 2018, 51 least developed countries (LDC) had accessed \$12 million in support of the preparation of their national adaptation programs of action (NAPA) and \$1.24 billion in support of implementation of NAPAs, the national adaptation plan (NAP) process, and elements of the LDC work programme. In total, the LDCF has supported a total of \$1.25 billion for 260 projects to address urgent and immediate needs for adaptation action and planning. The figures also include global projects amounting to \$13 million, which had been approved to support the preparation of the NAP process in LDCs, and the implementation of elements of the LDC work program other than NAPAs.
5. During this reporting period, \$48 million has been allocated from the LDCF to eight projects approved by the LDCF/SCCF Council.⁴ For a complete list of approved LDCF projects and programs, please refer to Annex I.
6. Given the important mandate of the LDCF to support the NAP process, total funding from the LDCF toward LDCs' NAP processes increased to \$55 million as at April 30, 2018. This

¹ GEF, 2017, [Highlights of the Council's Discussions, 23rd LDCF/SCCF Council Meeting](#).

² This amount does not yet reflect five additional LDCF projects which were posted on May 29, 2018 for Council approval by mail. These five projects, when approved, will total \$30.3 million and will be supported from the available balance of \$90 million.

³ Descriptions on updating technically cleared pipeline are included in: GEF, 2017, [Strategic Alignment of the LDCF Pipeline](#), Council Document GEF/LDCF.SCCF.23/Inf.02.

⁴ The \$48 million allocation to eight projects approved by the Council does not include five projects posted for Council approval by mail on May 29, 2018.

includes several projects which explicitly seek to advance NAP processes in Senegal, Rwanda, Chad, Niger and Bangladesh, in addition to targeted technical assistance for tailored one-on-one support that continues to be provided through the LDCF-financed NAP Global Support Program. Notably, several projects combined requests for funding to support NAP processes with requests to support concrete adaptation investments for NAPA implementation.

7. Under the LDCF, 144 out of 172 projects that have been CEO endorsed or approved, excluding 53 NAPA preparation projects, provided an estimate of the number of direct beneficiaries. These projects seek to directly reduce the vulnerability of over 20 million people. Furthermore, given the mandate of the LDCF to support the preparation of the NAP process in LDCs, 80 LDCF projects are already supporting countries in their efforts to integrate climate change adaptation into 210 national development policies, plans and frameworks. The LDCF also assists countries in laying the groundwork for climate-resilient development through 82 projects that enable countries to strengthen their national climate information services network.

8. As at April 30, 2018, cumulative pledges to the SCCF amounted to \$352.3 million, reflecting one pledge from Switzerland of \$536,000 during the reporting period. Of the total resources pledged, \$347.3 million or 99 percent had been paid. During the reporting period, one project was CEO approved with funding from the SCCF-A for \$1.1 million.

9. As at April 30, 2018, 78 countries had accessed a total of \$349.8 million for 78 projects under the SCCF. Of the total resources approved, \$289 million were for 67 projects under the SCCF Adaptation Program (SCCF-A), while twelve projects had been approved under the SCCF Program for Technology Transfer (SCCF-B), with total grant resources amounting to \$60.7 million. One project accessed resources under SCCF-A as well as SCCF-B.

10. Fifty-two out of 76 SCCF projects that have been CEO endorsed or approved provided an estimated number of direct beneficiaries. These projects, with SCCF resources amounting to \$242 million, aim to directly reduce the vulnerability of nearly seven million people.

11. During this reporting period, the development and consultations on the GEF Programming Strategy on Adaptation to Climate Change for the Least Developed Countries Fund (LDCF) and Special Climate Change Fund (SCCF) for the period of July 2018 to June 2022 took place. The strategy, including operational improvements envisaged, is to be discussed at the twenty-fourth LDCF and SCCF Council in June 2018.⁵

INTRODUCTION

1. This report describes the progress made in the operations of the Least Developed Countries Fund (LDCF) and the Special Climate Change Fund (SCCF) since their inception and specifically during the reporting period from October 2017 to April 2018.

2. Table 1 below presents a summary of LDCF and SCCF operations, including total cumulative pledges, paid contributions, and project approvals.

LEAST DEVELOPED COUNTRIES FUND

Pledges and contributions to the LDCF and further financing needs

3. During the reporting period, pledges were confirmed by Belgium, Germany, Sweden, Switzerland, and the Walloon Region of Belgium, amounting to approximately \$95 million. As at April 30, 2018, cumulative pledges to the LDCF amounted to \$1.33 billion. Of the resources pledged, \$1.27 billion or about 95 percent had been paid.

4. Due to limited available resources, the GEF remained behind in terms of being able to program LDCF resources at the level proposed in the illustrative scenarios contained in the *2014-2018 Programming Strategy on Adaptation to Climate Change for the LDCF and the*

¹¹ This amount does not yet reflect five additional projects which were posted on May 29, 2018 for Council approval by mail. These five projects, when approved, will total \$30.3 million and will be supported from the available balance of \$90 million.

¹² This comprises \$8,631,300 under the SCCF-A and \$3,346,304 under the SCCF-B.

SCCF(GEF/LDCF.SCCF.16/03) of \$175 to \$225 million per year or \$700 to \$900 million over the four-year period.¹³

5. The demand for LDCF resources continues to exceed the funds available for new approvals. As at April 30, 2018, the funds available for new funding decisions amounted to \$90 million.¹⁴ As of the same date, resources amounting to \$157 million were sought for 21 full-sized projects (FSPs) that had been technically cleared by the Secretariat. An additional \$92 million was sought towards 11 project proposals that had been endorsed by countries' operational focal points but not yet officially approved.

6. More broadly, additional contributions are needed if the LDCF is to meet the full cost of addressing the urgent and immediate adaptation needs of least developed countries (LDC) as identified in their national adaptation programs of action (NAPAs), estimated at \$2 billion.¹⁵

Support towards the preparation of national adaptation programs of action

7. As at April 2018, the GEF, through the LDCF, had provided \$12.2 million in support of NAPA preparation in 51 LDCs through 53 projects.¹⁶ On February 28, 2017, South Sudan submitted its NAPA to the UNFCCC, bringing the total number of countries that had completed and submitted their NAPAs to 51, namely: Afghanistan, Angola, Bangladesh, Benin, Bhutan, Burkina Faso, Burundi, Cambodia, Cape Verde, Central African Republic, Chad, Comoros, Democratic Republic of the Congo, Djibouti, Equatorial Guinea, Eritrea, Ethiopia, Gambia, Guinea, Guinea Bissau, Haiti, Kiribati, Lao People's Democratic Republic, Lesotho, Liberia, Madagascar, Malawi, Maldives, Mali, Mauritania, Mozambique, Myanmar, Nepal, Niger, Rwanda, Samoa, Sao Tomé and Príncipe, Senegal, Sierra Leone, Solomon Islands, Somalia, South Sudan, Sudan, Timor-Leste, Togo, Tuvalu, Uganda, Tanzania, Vanuatu, Yemen, and Zambia.¹⁷

Support towards the implementation of national adaptation programs of action and the preparation of the national adaptation plan process

8. As at April 2018, 50 LDCs had accessed a total of \$1,237 million for 207 projects in support of for NAPA implementation, the NAP process, and other elements of the LDC work programme (see Figure 2). These figures include three global projects with LDCF resources amounting to \$13 million approved to support the preparation of the NAP process in LDCs, and the implementation of elements of the LDC work programme other than NAPAs (see Figure 2).

9. During this reporting period, \$48 million has been allocated from the LDCF to projects approved by the LDCF/SCCF Council.

10. Given the important mandate of the LDCF to support the NAP process, total funding from the LDCF toward LDCs' NAP processes amounts to \$55 million as at April 30, 2018.¹⁸ This includes several projects which explicitly seek to advance NAP processes in South Sudan, Senegal, Rwanda, Chad, Niger and Bangladesh, in addition to targeted technical assistance for tailored one-on-one support that continues to be provided through the LDCF-financed NAP Global Support Program.

11. Three of the 21 technically cleared projects in the pipeline have been explicitly designed to advance LDCs' NAP processes. These projects would enable countries to move beyond the implementation of their urgent priorities towards the integration of climate change adaptation

¹⁶ This includes two global projects supporting the preparation of NAPAs.

¹⁷ All completed NAPAs are available on http://unfccc.int/cooperation_support/least_developed_countries_portal/submitted_napas/items/4585.php.

across key policies, plans, programs and decision-making processes, in line with COP guidance¹⁹ and a LDCF/SCCF Council decision to operationalize support towards NAP process.²⁰

12. Notably, several projects combined activities to support NAP processes with activities to support concrete adaptation investments for NAPA implementation. Such requests may, for instance, comprise investments in hydro-met infrastructure to provide climate and weather data that are intended for use by decision-makers when integrating climate change impacts and adaptation measures into regional, national and sub-national policies and plans, including for NAPs. Such joint NAPA-NAP projects include separate components that focus on the NAP process through technical assistance and capacity building.

13. 50 out of 51 LDCs that had completed their NAPAs by the end of the reporting period had at least one NAPA implementation project approved under the LDCF. Equatorial Guinea was the only country that had completed its NAPA but graduated from LDC status in June 2017 without accessing LDCF resources for NAPA implementation. As of April 2018, each LDC is eligible to access up to \$40 million from the LDCF. At the end of the reporting period, 36 LDCs had accessed more than \$20 million each for NAPA implementation from the LDCF (see Table 2).

Council Approvals and CEO Endorsements

14. During the reporting period, eight projects have been approved by the LDCF/SCCF Council for funding.²¹ Five FSPs have received CEO endorsement, with associated LDCF commitments amounting to \$45 million. In total, 225 projects, including the 53 NAPA preparation projects, had been CEO endorsed or approved as of April 30, 2018, as shown in Table 1. Tables 3 and 4 present a list of Council approved and CEO endorsed projects, respectively, during the reporting period.

²¹ This amount does not yet reflect five projects which were posted on May 29, 2018 for Council approval by mail, which amount to a total of \$30.3 million in LDCF resources.

Regional distribution of LDCF financing

15. Figure 3 presents the regional distribution of the total LDCF financing of \$1,237 million for projects that address NAPA implementation, the NAP process, and other elements of the LDC work programme.²² As April 2018, more than 67 percent of LDCF financing had been directed towards LDCs in Africa, while LDCs in Asia and the Pacific had accessed 30 percent of the total resources approved. The regional distribution of LDCF programming reflects the distribution of LDCs, of the majority of which are located in Africa. The twelve current and former LDCs that are also Small Island Developing States (SIDS) had accessed a total of \$220.9 million from the LDCF.

Figure 3: LDCF Financing by Region (\$ Million), as of April 30, 2018

²² The figure does not include resources allocated to NAPA preparation projects.

Distribution of LDCF financing by sector

16. The GEF, through the LDCF, supports LDCs in addressing their urgent and immediate adaptation needs across key vulnerable sectors. Consistent with the priorities identified in LDC NAPAs, approximately 31 percent of LDCF resources, or \$365 million, has been directed towards enhancing the resilience of agricultural production and food systems. Natural resources management, climate information services, and coastal zone management are other priority sectors for LDCF financing, each having received between 12 and 17 percent of total funding approvals as at April 30, 2018 (see Figure 4).

Figure 4: LDCF Financing by Sector (\$ Million), as of April 30, 2018

Agency involvement in LDCF projects

17. As at April 30, 2018, nine GEF Agencies were involved in LDCF projects and programs, with UNDP holding the largest share of the portfolio at 53 percent of total funds approved (see Figure 5). During the reporting period, approved projects were UN Development Programme (UNDP), UN Environment Programme (UNEP), UN Industrial Development Organization (UNIDO), and African Development Bank (AfDB), as shown in Table 3.

Figure 5: Distribution of LDCF Financing by GEF Agency (\$ Million), as of April 30, 2018

Expected results under the LDCF

18. By the end of this reporting period, 225 projects had been CEO endorsed or approved, and are at various stages of implementation. Of these, 172 projects support NAPA implementation, the NAP process, and the implementation of other elements of the LDC work programme.²³ In total, 144 out of 172 implementation-oriented projects that have been CEO endorsed or approved provided an estimate of the number of direct beneficiaries.²⁴ Key expected results of these projects, including aggregate values of quantitative indicators, are summarized in Table 5 below.

19. The indicators are aligned with the results framework that was introduced in the *GEF Programming Strategy on Adaptation* for the period from July 1, 2014 to June 30, 2018 (GEF/LDCF.SCCF.16/03) and refined in the updated *Results-Based Management Framework for Adaptation to Climate Change* (GEF/LDCF.SCCF.17/05/Rev.01). Full expected results are found in the results frameworks specific to each project, available in the project documents posted on the GEF website.²⁵

20. In response to the request made at the fourteenth meeting of the LDCF/SCCF Council in June 2013, the Secretariat, in its Annual Monitoring Reviews of the LDCF and the SCCF,

²³ 53 projects out of the 225 projects are NAPA preparation projects, comprising of 51 national and two global support projects.

²⁴ This includes one LDCF-financed Multi-Trust Fund project that was endorsed by the CEO in this reporting period.

²⁵ Project documents may be found on <https://www.thegef.org/projects>.

continues to provide a summary of actual, portfolio-level results of projects that have been completed or that are under implementation.²⁶

21. These 144 projects seek to directly reduce the vulnerability of more than 20 million people. Given the mandate of the LDCF to support the preparation of the NAP process in LDCs, 80 LDCF projects are already supporting countries in their efforts to integrate climate change adaptation into 210 national development policies, plans and frameworks. The LDCF also assists countries in laying the groundwork for climate-resilient development through 82 projects that will enable countries to strengthen their national climate information services network.

22. During the reporting period, five LDCF projects were endorsed or approved by the CEO and thus became ready to enter implementation. Two examples below illustrate in greater detail the expected adaptation benefits sought.

23. The project titled *Chad National Adaptation Plan*, implemented by UNDP, aims to facilitate the integration of climate change adaptation into medium and long-term planning and budgeting of climate-sensitive sectors in Chad including agriculture, livestock, fisheries and water resources. The project estimates that it will directly benefit 130,000 people, of which 66,300, or 51 percent, are women. The project would adopt a comprehensive approach to advancing Chad's NAP process; addressing critical information and capacity needs across all climate-sensitive sectors, from the national to the sub-national levels.

24. The project will enhance existing policy-making and planning processes, as well as the underlying climate information services, thereby seeking a sustained improvement in Chad's ability to address the adverse effects of climate change in the context of its national development priorities. Information gathered on agriculture, livestock and fisheries of local communities in the 15 target regions of this project will make it possible to adjust the production paths of primary food crops (millet, sorghum, maize), avoiding expected production reductions estimated between 10 and 25 percent. Through this project, 90 people will be trained to identify, prioritize, implement, monitor and evaluation adaptation strategies and measures; while four regional/national plans and processes will be developed or updated as well as 16 subnational plans and processes.

25. The project titled *Resilient Productive Landscapes in Haiti*, implemented by the World Bank, supports landscape management, including restoration of watersheds, and implementation of climate-resilient agricultural strategies. The project supports institutional capacity building of watershed and farmer organizations for investments in resilient agricultural and natural resources management practices, including through the introduction of new technologies and practices. These farm level investments enhance agricultural opportunities

through access to new and better markets and reduce production risks while decreasing vulnerability to shocks.

26. Under this project, support to the adaptation window of the Caribbean Biodiversity Fund, which is being set up as a trust with income generated from the principal, will be used for funding further activities and will ensure financial sustainability and therefore offer continued support to adaptation. The project will benefit an estimated 4,000 people, of which 35 percent are women; while ensuring that 2,000 hectares of land are more effectively managed to withstand the effects of climate change and benefit from the introduction of more climate resilient technologies. An additional 3,000 people will be trained to adopt these technologies and practices.

SPECIAL CLIMATE CHANGE FUND

Pledges and contributions to the SCCF and further financing needs

27. As at April 30, 2018 cumulative pledges to the SCCF amounted to \$352.3 million, reflecting a pledge of \$536,020 from Switzerland made in November 2017 (see Figure 6 below). Of the total resources pledged, \$347.3 million or 99 percent had been paid. Resources had been provided by 15 contributing participants.

28. The cumulative pledges and contributions to the SCCF continue to fall short of the demand for resources. As at April 2018, with \$7.7 million in pledges announced since July 1, 2014, the GEF has not been able to program SCCF resources at the level proposed in the 2014-2018 Programming Strategy: \$100 to \$125 million per year or \$400 to \$500 million over the four-year period.²⁸

29. During this reporting period, one medium-sized Project (MSP), *Structuring and launching CRAFT: the First Private Sector Climate Resilience and Adaptation Fund for Developing Countries*, was approved by the GEF CEO for \$1.1 million. CRAFT is one of the twenty projects showcased at the One Earth Summit in December 2017 “...to be stepped up and replicated, and to serve as a source of inspiration around the world” and to “...illustrate the fact that concrete local and global solutions exist to address the challenges we face.” More details about this project are described in the following section.

Progress in SCCF operations

30. As April 30, 2018, 78 countries had accessed a total of \$349.8 million for 78 projects under the SCCF. This represents an increase of \$1.1 million during the reporting period. Of the total resources approved, \$289 million were for 67 projects under the SCCF Adaptation Program (SCCF-A), while twelve projects had been approved under the SCCF Program for Technology Transfer (SCCF-B), with total grant resources amounting to \$60.7 million. Of these projects, one project accessed resources under SCCF-A as well as SCCF-B (See Figure 7 and Table 6). For a complete list of approved projects under SCCF-A and B, please refer to Annex II.

CEO Endorsements and approvals

31. One MSP was CEO approved in a one-step process during the reporting period, more information on that project is available below.

Regional distribution of SCCF financing

32. As at April 30, 2018, the SCCF financing had been approved for projects in Asia, Africa as well as Latin America and the Caribbean, with 25 to 27 percent of total funding approvals in each region. Europe and Central Asia followed with 15 percent of approvals (see Figure 8). At the end of the reporting period, 27 SIDS had accessed \$47.7 million from the SCCF. The funding amounts exclude global projects from which several SIDS also benefit.

Figure 8: SCCF Financing by Region (\$ Million), as of April 30, 2018

Distribution of SCCF financing by sector

33. To date, the largest share of SCCF financing had been approved towards projects which enhanced the resilience of water resources management and the agriculture sectors, accounting for 25 and 24 percent of approved resources each, respectively. Coastal zone management, disaster risk management as well as measures to enhance the resilience of other infrastructure assets, including energy and transportation, are other priority areas for SCCF financing, accounting for approximately nine to twelve percent, respectively, of total resources approved as at April 30, 2018. Around eight percent of the SCCF resources approved support entirely cross-cutting projects, primarily under SCCF-B, the Program for Technology Transfer (see Figure 9).

Figure 9: SCCF Financing by Sector, April 30, 2018

Agency involvement in SCCF projects

34. As at April 30, 2018, twelve GEF Agencies were involved in SCCF operations, with the World Bank holding the largest share of the portfolio at 27 percent of total funds approved, followed by UNDP at 23 percent (see Figure 10). During the reporting period, the first project with SCCF resources implemented by Conservation International was approved by the CEO.

Figure 10: Distribution of SCCF Financing by GEF Agency (\$ Million), as of April 30, 2018

Expected results under the SCCF

35. By the end of the reporting period, 76 SCCF projects had been endorsed or approved by the GEF and were under some stage of implementation or ready to enter implementation. For these projects, key expected results are summarized in Table 7 below. The summary provides an aggregate value for quantitative indicators used in a critical mass of the 76 projects considered. The indicators are aligned with the results framework that was introduced in the *GEF Programming Strategy on Adaptation* for the period from July 1, 2014 to June 30, 2018 (GEF/LDCF.SCCF.16/03) and refined in the updated *Results-based Management Framework for Adaptation to Climate Change* (GEF/LDCF.SCCF.17/05/Rev.01).).

36. Full expected results are found in the results frameworks specific to each project, available in the project documents posted on the GEF website.²⁹ In response to the request made at the fourteenth meeting of the LDCF/SCCF Council in June 2013, the Secretariat, in its Annual Monitoring Reviews of the LDCF and the SCCF, continues to provide a summary of actual, portfolio-level results of projects that have been completed or that are under implementation.³⁰

37. In total, 52 out of 76 projects provided an estimated number of direct beneficiaries. These projects aim to directly reduce the vulnerability of close to seven million people. In addition, 33 SCCF projects are supporting countries in their efforts to integrate climate change adaptation into 140 national and sector-wide development policies, plans and frameworks.

38. During the reporting period, one MSP with SCCF resources, was approved by the CEO. The CRAFT project supports the establishment and resource mobilization of the first private

³¹ Given the significant share of projects that target agriculture and food systems as a priority sector, this figure includes to a large degree production systems; but it also encompasses other vulnerable land, such as catchments and coastal zones.

sector climate resilience and adaptation investment fund and technical assistance facility for developing countries, consistent with the goals of the Paris Agreement. The project would facilitate the completion of CRAFT's investment strategy, Technical Assistance Facility strategy, and overall impact strategy, including adaptation-focused impact metrics. The project would further entail the development of a fundraising strategy and initiate fundraising activities with at least \$50 million of potential investment under due diligence after 18 months. In addition, the project would support the identification and incorporation of 250 companies into the Fund's database of climate resilience companies and identify at least five high-probability potential investment transactions.

39. The project is expected to benefit 100,000 people, including 1,000 who will directly benefit from public awareness generated by the project. Additionally, the project aims to train 10,000 people, although this is a post-project benefit estimate over the fund life in 11 years. These people will be trained to perform climate risk assessments using climate intelligence services from investee companies, or to use other climate resilience products and services. Additionally, three institutional arrangements to lead, coordinate and support the integration of climate change adaptation into relevant policies, plans, and associated processes will be established and strengthened. Over the fund's life, it is expected that 7,500 risk and vulnerability assessments will be carried out and updated as a direct result of this project, assuming that each company that adopts a climate intelligence solution or service from an investee company will perform at least one climate risk assessment using a CRAFT tool or service.

MULTI-TRUST FUND PROJECTS AND PROGRAMMATIC APPROACHES UNDER THE LDCF AND THE SCCF

40. To date, the LDCF/SCCF Council had approved a total of 15 FSPs and four programmatic approaches that draw resources from multiple trust funds. LDCF and SCCF funding associated with these projects and programs amounted to a total of \$77.78 million from the LDCF and \$35.82 million from the SCCF.

41. During this reporting period, no additional multi-trust fund projects were approved by the LDCF/SCCF Council.

DEVELOPMENT OF GEF PROGRAMMING STRATEGY ON ADAPTATION TO CLIMATE CHANGE

42. The development and consultations on the GEF Programming Strategy for the LDCF and SCCF for the period of July 2018 to June 2022 took place during the reporting period.³² Initial

³² GEF, 2018, [*GEF Programming Strategy on Adaptation to Climate Change for the Least Developed Countries Fund and the Special Climate Change Fund and Operational Improvements*](#),

discussions took place at the twenty-third LDCF and SCCF Council on November 30, 2017, under the agenda item on the Strategic Alignment of the LDCF Pipeline.

43. The GEF Secretariat took the following steps for the consultations and technical review of the strategy, which is presented to the twenty-fourth LDCF and SCCF Council in June 2018:³³

- (a) Request at LDCF and SCCF Council to interest countries and stakeholders to express their willingness to engage to the GEF Secretariat;
- (b) Distribution of a tentative consultation schedule in mid-January 2018 requesting countries and stakeholders to confirm their interest to engage;
- (c) Informal bilateral consultations with interested representatives in March and April 2018;
- (d) Technical review of draft strategy, starting on April 13, 2018, to solicit comments from relevant adaptation-related funds, including the Green Climate Fund, Adaptation Fund, and Climate Investment Funds, expert institutions on adaptation, Least Developed Countries Expert Group (LEG), UNFCCC and UNCCD Secretariats, and select GEF Agencies;
- (e) Distribution of draft strategy on April 17, 2018;
- (f) Consultative meeting on April 29, 2018 in Bonn, Germany with donor representatives, Chair and members of LDC Group, and UNFCCC representatives;
- (g) Consultations with LDC representatives on May 2, 2018 in Bonn, Germany; and
- (h) Consultation with donor and recipient representatives on May 23, 2018 over telephone/video conference.
